

THE PANDEMIC TREATY

Yes, there is going to be one.

We draw your attention to important information from a former **World Health Organization [WHO]** employee, Dr Astrid Stückelberger, who explains in great detail the background story and the imminent dangers of what the WHO is planning.

This Norwegian lady, married to a Swiss man (hence the German-sounding surname) was for many years caught up in the idealistic concept of world unity and world peace: being fluent in several languages, she was soon delegated to be the WHO observer at the United Nations HQ, where she was fully in tune with the concepts and practices of both corporations.

When, after many years, her work at the WHO was slowly being 'observed', controlled, criticized and channelled in ways which are clearly unhealthy, she finally parted company with the WHO and has since become a mouthpiece to expose what is really going on inside that nebulous corporation.

There has recently been a 42-minute video interview in which she brings us, the 'watchers', bang up-to-date with the whole dreadful plot by these arrogant souls, who really believe that this world is now their plaything.

Common law - common humanity - common sense

We encourage you to switch off the MSM misinformation and think about what you and I could do to counter this threat.

<https://t.me/TheLightPaperDistribution/225862>

The WHO is a 'perfect' (*in a bad sense*) organization for managing and organizing a pandemic, and there are dark-minded oligarchs on board there who fully support the long-term concept of achieving world domination since the 1940s. This is truly a 'quiet' war - see SWFQW - an earlier blog.

All 96 member countries, you will note, UK included, are still under some level of 'emergency' legislation; (indeed, our resident puppet wants to quietly keep it going), and we have previously discussed how, after declaring on the 'gov.uk' website, on 19th March 2020, that Cov-SARS-2 is not a High Consequence Infectious Disease [HCID], the Tories went on to foist upon us the 'Coronavirus Act 2020' - just one week later.

Without here printing out the entire text of Dr Stückelberger's information, the summary is that the WHO, which has had its own 'constitution' since it began, now, via the 'authority' which they assumed when 96 countries 'signed up' to their innocuous-sounding' programme of world health improvement, intend that their

Common law - common humanity - common sense

constitution shall become the constitution of the whole world.

As an aside, it should be remembered that, like him or loathe him, it was DJT who **declined** to get the United States of America embroiled in the plot, also, the government of Iran said '**No**'. At the time of writing, we understand that 'Russia' is also considering withdrawing from the consensus.

Dr Stückelberger reveals some truly frightening elements of what is being planned - a continuous 'epidemic' being the immediate threat.

Friends, if this is what you are prepared to consent to, then do please continue to swallow the misinformation which pours out daily via your televisions and radios. As for us, live or die, we are done with this morass of UK legislative corruption: there is a way forward, the road will not be smooth, but, as we often remind you, the Rastafarian motto goes - '**those who are in earnest are not afraid of consequences**'

Please email us on - info@livingstones.uk for details of your road-map to freedom.
